

AUSTRALIA'S FINEST SHUTTERS
FOR A FRACTION OF THE COST

CUSTOMISATION EQUAL TO YOUR IMAGINATION

Highprofile

This premium real timber shutter stands for true quality in a market filled with imitations. What's more, this is a shutter that has endless options for customisation. Different colours, material coverings, gold crackle paint or even logo transfers...your imagination is your only limitation.

2-pack polyurethane paint provides the best finish in the industry

Impressive 1050mm wide panels

Proprietary light block panels

MADE IN AMERICA BY CRAFTSMEN

There are many unmistakable characteristics that make America's best shutter distinctively unique. Hand-crafted quality refined over generations, sustainable wood harvestry, and superior timber selection for a flawless finish. You will never see another shutter like it, yet you are reminded of how the traditional shutters once was; smooth flat blades and classic timber rods.

Expansive blade sizes up to 134mm

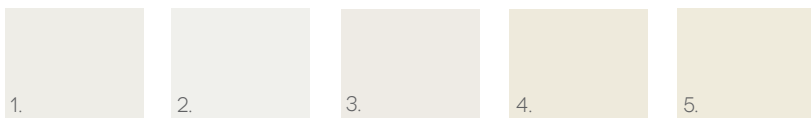

Largest single panel expanse, up to 3.4 meters

Unique Double Clearview tilt rod provides the industry's tightest closure and light block.
